

PEPperPRINT is a private and innovative biotech company located in Heidelberg, Germany. The company is the leading provider of high-density peptide microarrays and related services for biomedical research and development. Its worldwide customer base includes research institutes and universities as well as well-known biotechnology and pharmaceutical companies. PEPperPRINT GmbH was awarded the Innovation Prize of the German Economy in 2010.

To support our Marketing and Business Development Teams, we are looking to fill a part-time position for a:

Working Student/Intern – Digital Marketing & Business Development (m/f/d)

Your tasks include:

- Providing support to the Marketing and Business Development teams in various projects.
- Assisting in planning and management of social media activities and related digital marketing campaigns
- Designing and generating digital assets for use across different platforms (online and print materials, website UI elements, etc.)
- Providing technical and creative support for the development of multimedia projects for marketing or educational purposes (instructional videos, scientific posters, etc.)

Your profile:

- B.Sc. or M.Sc. degree in Biology, Biotechnology, or equivalent
- Writing proficiency in English
- Creative with an aptitude for science communication, and a high affinity for social media
- Experience in working with design software/apps (Adobe creative suite, Canva, etc.)

What we offer:

- Learning and growth opportunity for life-science marketing and business development in the biotech industry
- Flat hierarchies and flexible work hours with the possibility of working from home
- A social, family-friendly, and multicultural work environment

Has the position drawn your interest? Please send us your job application by email to Fior Casilag (fior.casilag@pepperprint.com).
